

## ABBOTTS HOUSE

<b>Project:</b>	Abbotts House
<b>Location:</b>	Reading, Berkshire
<b>Architect:</b>	T P Bennett
<b>Main contractor:</b>	Sir Robert McAlpine

### Glass-reinforced gypsum

This is a phased development contract and covers the main reception areas to all four blocks.

The work consists of GRG moulded panels forming the lighting troughs in all designed areas as well as the ceiling of the areas in question which matched the lift lobbies.

The area illustrated is the outstandingly striking ceiling in the main front entrance which changes in colour tone as the natural daylight changes during the day.

### PRODUCT RANGE

Openwood manufactures moulded products in glass-fibre reinforced gypsum, traditional fibrous plaster, and glass-reinforced plastics; further details are available on request.

### Openwood Licensed manufacturers of Acell products
